1 FAQ

Why do I have to enter my publications and lectures/presentations in the data base?

In the annual intellectual capital report (Wissensbilanz) the number of the publications and lecturers/presentations of the artistic/scientific personnel has to be represented. Additionally, all the bibliographical entries are to be published on our website (see: www.akbild.ac.at/bibliografischenachweise). The entries of the artistic/scientific personnel in the data base of AkademieOnline form the basis of this.

Who must enter his or her publications and lectures/presentations in the data base?

the entire artistic/scientific staff of the Academy (not: students, study assistants, tutors)

I am working in a third-party funded project (e.g. FWF/PEEK). Do I have to give entries?

Yes, because you are a member of the artistic/scientific staff of the Academy and because you are in an employment relationship to the Academy.

I am working as a lecturer. Do I have to give entries?

Yes, because you are a member of the artistic/scientific staff of the Academy and because you are in an employment relationship to the Academy.

I was on maternity/paternity/educational leave / sabbatical the last year. Do I have to give entries?

Yes, because you are a member of the artistic/scientific staff of the Academy and because you are in this period also in an employment relationship to the Academy.

Where in the data base do I enter my exhibition/ installation / performance/ art education project / film screening?

Publication Data Base: Only artistic contributions that are somehow recorded and publicly available are covered. If your artistic contribution is recorded (e.g. in an art catalogue) or digitalized (DVD, CD, URL), please enter it in the data base for *publications*.

Lectures/Presentations Data Base: If your performance, art education project, film screening or another similar artistic project may be defined as lecture/presentation, please enter it in the data base for *lectures/presentations*.

An interview with me was published in a journal. Where do I enter this?

For the Wissensbilanz only publications, of which you are author or editor, are covered. You need not make an entry.

Exception: If in the respective interview is also published an artistic work/contribution from you (exhibition view, installation view, photo, film still etc.) for the first time, then enter the artistic work/contribution in the data base for publications. In that case enter in the field *title* the title of your artistic work/contribution. The author of the interview, the title of the interview and the journal enter in the field *Publikationsorgan*.

An article about my artistic work was published in a journal. Where do I enter this?

For the Wissensbilanz only publications, of which you are author or editor, are covered. You need not make an entry.

Exception: If in the respective article is also published an artistic work/contribution from you (exhibition view, installation view, photo, film still etc.) for the first time, then enter the artistic work/contribution in the data base for publications. In that case enter in the field *title* the title of your artistic work/contribution. The author of the article, the title of the article and the journal enter in the field *Publikationsorgan*.

A review about a book of mine was published in a journal. Where should I enter this?

For the Wissensbilanz only publications, of which you are author or editor, are covered. You need not make an entry.

How do I modify/correct an entry?

You may change or delete a dataset any time by clicking *Edit* when viewing the details on your publications or lectures.

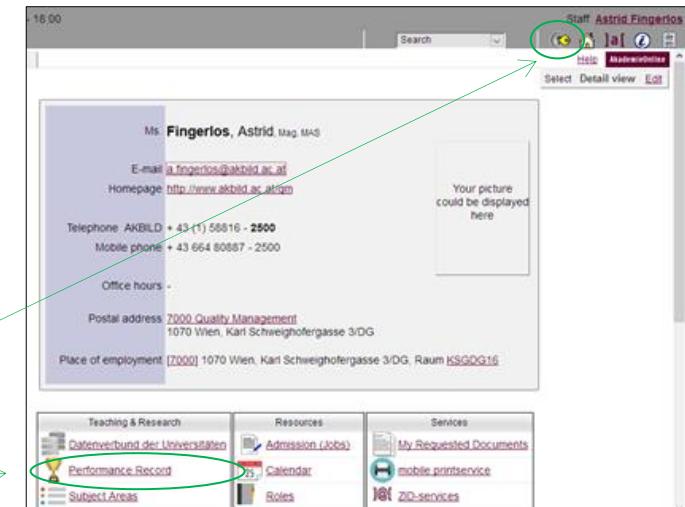

2 First steps

Please note

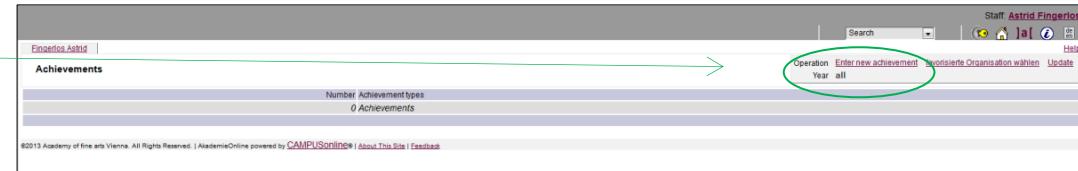

Browser: the best way is to use *Firefox*, many other browsers may cause problems. The database does not work with *Safari* at all.

Step 1: Log on to AkademieOnline https://campus.akbild.ac.at/akbild_online/webnav.ini with your login and password. You will see your personal card.

Step 2: Click on *Performance Record*.

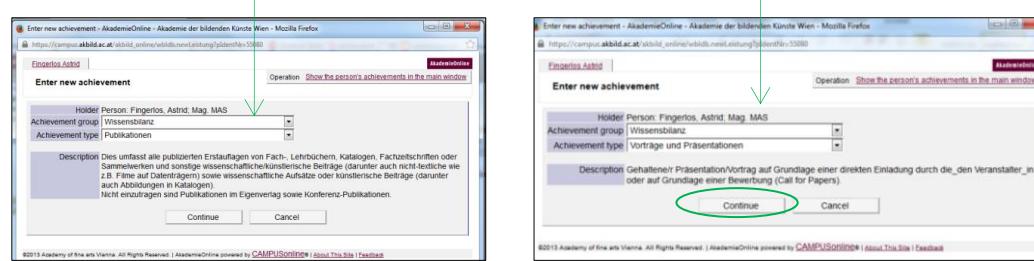

Step 3: Then click on Enter new achievement at the top right.

A new window appears.

Step 4: The system will give you a choice of two types.

Select in the drop-down menu either *Publikationen* (publications) or *Vorträge und Präsentationen* (lectures and presentations), then click on Continue.

The respective window appears. Please enter your data. The following chapter will give you a guidance on entering your publication data. The guidance on entering the data on your lectures/presentations you find on page 12.

3 recording your publications

Please note

- This covers all your first publications of books, textbooks, art catalogues, periodicals, journals or anthologies and other scientific/artistic contributions (including non-textual types such as films published in data networks or in other electronic data media) as well as scientific articles, proceedings or artistic contributions.
- Please enter only first publications or editions, i.e. if the same article or book is published a second time in another journal, please do not record it.
- If you teach at other universities besides the Academy, you may enter each of your publication only at one university (we appreciate, if you choose the Academy of Fine Arts Vienna).

Step 1: *Titel*: Please insert the title of your publication.

Step 2: *Typus von Publikationen*: Please select in the drop-down menu the type of your publication.

The following translation follows the order in which the German language terms appear in the menu:

- *Erstauflagen von wissenschaftlichen Fach- oder Lehrbüchern* (first editions of scholarly (text-)books)
- *Erstveröffentlichte Beiträge in SCI, SSCI und A&HCI Fachzeitschriften* (first publication of articles in SCI, SSCI and A&HCI journals¹)
- *Erstveröffentlichte Beiträge in SCI, SSCI und A&HCI-Fachzeitschriften - in internationaler Kooperation* (first publication of articles in SCI, SSCI and A&HCI journals – in international cooperation)
